

What can you see in summer?

Cygnus Class Summer Term 2 2021

The sun has got his hat on! Let's go outside, to explore everything that summer has to offer. In this project, we'll learn all about summer, the changes that happen in the natural world and things people do during the warmer months.

This half term, we'll go for a walk to look for signs of summer, and use our senses to explore the season. Back at school, we'll have lots of fun role playing in our ice cream shop.

We'll use symbols to complete a weather chart, and record the temperature. In our mathematics work, we'll count and estimate the number of seeds in a watermelon slice. Using our green fingers, we'll plant seeds and care for them during the project. We'll look closely at objects that you might take to the beach, and technology that people use during the summer such as digital cameras and desktop fans. There'll be lots of delicious foods to eat. We'll taste summer fruits, make healthy deserts, and then write instructions. Outside the classroom, we'll play with different balls and search for wildflowers. We'll learn about sun safety, and make sunglasses using different materials.

Areas of learning: Understanding the World	
Memorable experience	Signs of summer
Innovate challenge	A perfect picnic!
Communication and language	Listening and attention; Understanding; Speaking
Physical development	Moving and handling; Health and self-care
Personal, social and emotional development	Self-confidence and self-awareness; Managing feelings and behaviour; Making relationships
Literacy	Reading; Writing
Mathematics	Numbers; Shape, space and measures
Understanding the world	The world; Technology
Expressive arts and design	Exploring and using media and materials; Being imaginative

Help your child prepare for their project

Summer is superb! Why not explore your local area to look for signs that summer is here? You could also plant seeds such as carrots, herbs or beans. What will the seeds need to help them grow? Alternatively, you could do some finger-painting to create a brightly-coloured, summery work of art.
